

PRODUCTS

Silicone Sealant

- General Use Silicone Sealant
- Structural Silicone Sealant
- Granite(Marble) Sealant
- Waterproof Silicone Sealant
- IG Silicon Sealant
- Bathroom & Kitchen Sealant
- High Elasticity Sealant
- Fireproof Silicon Sealant
- Fire&Weatherproof Sealant

Polysulfide Sealant

- IG Polysulfide Sealant
- Low Temp Polysulfide Sealant
- Waterproof Polysulfide Sealant
- Fireproof Polysulfide Sealant

Butyl Sealant

- Insulating Glass Butyl Sealant
- Butyl Tape Adhesive

IG Material

- Aluminium Spacer And Corner
- Molecular Sieve

Others

- Driveway Sealant
- Organic Protective Agent
- Silicone Sealant Primer
- Epoxy Stone Sealant

Hangzhou Silicone Tech Adhesive Co., Ltd is a professional manufacturer of **silicone sealant (rtv sealant)**, **polysulfide sealant**, **butyl sealant** and auxiliary products for glazing, structural curtain and indoor sealing(bathroom,kitchen and so on). Silicone Tech built on 2003, has acquired ISO9001 certificate since 2005, we has produced 900 metric tons sealant in 2009, over 40% products exporting to oversea countries.

Now, we have nine production lines,able to produce three series and over twenty kinds of sealant products. For expanding export business, we produced new sealant products,the silicone sealant and polysulfide sealant already became a strong challenger in International market. Our faith is

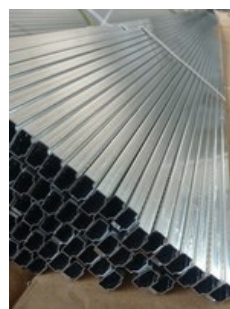

provide most competitive price, fastest delivery and most accurate service.

Acetic sealant

Waterproof Sealant

Aluminium Spacer

Molecular Sieve Dessicant

Silicon Sealant (rtv sealant)

From curing process view, there are two kinds of **silicone sealant**, single-group and double group. The curing process of single-group silicone sealant is depend on humidity of air(**rtv sealant**), the double-groups silicon sealant can't cured individually,it's curing process is happen when two group sealants were mixed.

From chemical properties view, silicone sealant have two types, acid sealant and neutral sealant. Acid sealant has more competitive price than neutral sealant, but acid silicone sealant is easy reaction with alkaline material,gradually, it replaced by neutral silicone sealant.

Silicone Tech is able to produce both high quality neutral silicon sealant and cost-efficient acid sealant, used for glazing of window & door(rt sealant), aluminium curtain wall, stone curtain wall, joint sealant of metal,aluminum and ceramic tile. Primer free for most material.

Polysulfide Sealant

Bio-component Polysulfide sealant is a kind of liquid polysulfide rubber based sealant, has good adhesion for steel, aluminium, glass and concrete. Polysulfide sealant also has good sealability and waterproofing ability even in vibration, tensile strength and high&low temperature condition.

Silicone Tech's Polysulfide sealant use for joint seal and adhesive of insulating glass, airport runway, express road.

Butyl Sealant

Butyl sealant is a polymer isobutene based sealant which has three types, hot-melt, vulcanized and non-vulcanized.Silicone Tech produce hot-melt **butyl sealant** be used for Insulating Glass sealing(First sealing process).
